

COMMERCIAL BUILDINGS

**Solar
Is
"Good Business"**

Businesses can save 30% by greening their facilities.

It's possible to reduce energy costs in new buildings by 50% with energy-efficient equipment.

By investing now in Solar Energy, you are harnessing long-term savings for the future of your business.

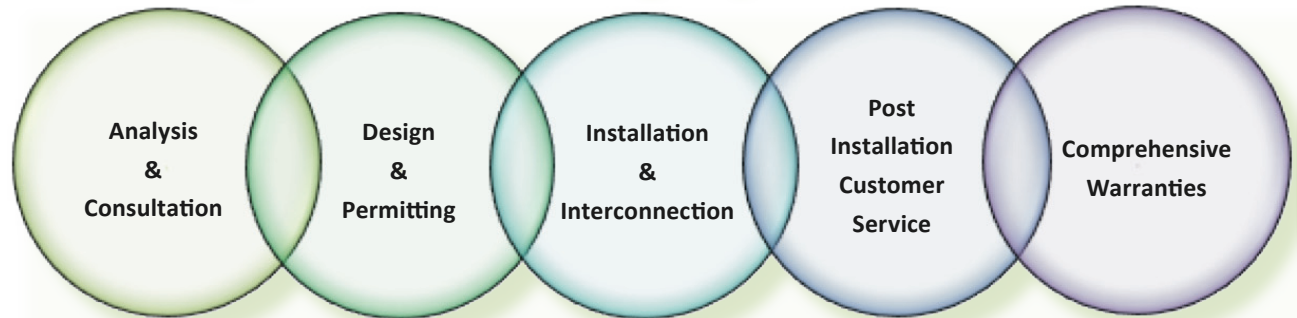

Be A "Green" Business

"Going Green" makes your customers feel like they, themselves, are part of making the world a better place.

That creates long-term customer loyalty and a lot of buzz about your business using absolutely zero advertising dollars!
